WHO WE ARE

New Image Labs is the industry's technical headquarters, continuously providing clients with new and innovative hair replacement solutions. We offer an extensive selection of cutting-edge products ranging from men's and women's hair replacement systems, all with a variety of base materials, bonding methods, and hair types. Our hair accessories, which include adhesives, bonding tapes, scalp preparation, and more, are the most innovative in the industry, accommodating each client and their specific needs. For over 30 years, New Image Labs has been the leader in innovation and customer service and continues to provide "simply the best" products in the Hair Replacement Industry.

Our vision for the latest technology has brought forth continued growth resulting in new divisions within the company.

- Nutrifuse by Pro|Gen - Considered the most successful line of hair care products developed specifically for the hair replacement industry. Restore dry, damaged hair with nutrient-rich ingredients such as argan oil, keratin, collagen and vegetable protein.

- Active Care by Pro|Gen - Looking for the best hair and scalp products available? Active Care offers more than 21 products to nourish your hair and scalp, making it the most sought-after scalp therapy program on the market.

- Probe by Pro|Gen - These highly innovative hair, scalp, and skin analyzers are the latest technology to hit the market. Developed with the help of Samsung®, these hand-held cameras are unlike any other as they are changing the way salons do business today. With Wi-Fi video streaming and multi-OS support, it has never been easier to evaluate the hair, scalp, and hair cuticles of your client to provide recommendations based on factual analysis. The perfect tool to work in conjunction with Active Care.

- Luxia Artiss - The best hair extensions available in the world. These double-drawn hair extensions are 100% European hair with a 38-point quality control inspection. Our latest addition, the Or & Argan Hair Care Collection, an innovative hair care collection that delivers the benefits of age-old active ingredients to repair, enhance, and preserve hair without weighing it down.

As a well-established company, New Image Labs offers locations domestically and internationally with offices in West Palm Beach, Florida, Ontario, Canada, and Hong Kong, China.

The hallmarks of our business philosophy are:

- Innovation to bring you tomorrow's technology today to stun your clients
- Excellency to bring you the best in product and service
- Accessibility to be within your reach when you need us most
- Consistency to help you take some of the hassles out of running your business
- Continuity to help you deliver on time

LIQUID ADHESIVES

X20

ACLAX1 - 3.4 fl. oz.
ACLAX1B - 0.5 fl oz.

X20 is a non-toxic, non-flammable, water-based bonding adhesive formulated for sensitive skin. It is recommended for use with NX-Gen Effects™ Steps 1-3. Clients can expect up to four weeks of holding strength.

NX-Gen Effects™ X20 Kit

ACLAXK1S - 5-piece kit

The X20 application kit contains five products, designed to enhance one another for the ultimate hold. For best results, use all four steps as recommended and the client can expect up to four weeks of holding strength. Use with included X20 Adhesive sponges.

STEP 1 Rinse Away 8 oz. an all-in-one cleaning product used to remove most types of adhesive from the scalp, and aid in removing dead skin cells and oil from the scalp as well.

STEP 2 X-FO Gel 8 oz. used to remove dead skin cells and clean the scalp thoroughly, creating an ideal foundation for the next step.

STEP 3 Derma Seal 8 oz. a specially formulated product that removes sebum from the scalp, leaving the treated area dry and clean. Derma Seal also helps control bacteria growth, minimizing odor.

STEP 4 X20 Agent 3.4 oz. a non-toxic, non-flammable, and water-based application bond formulated for sensitive skin.

NX-GEN Effects™ Unifying Agent

ACLANG1 - 5.0 fl. oz.
ACLANG1B - 2.0 fl. oz.
ACLANG1C - 0.5 fl. oz.

NX-Gen Effects™ Unifying Agent is a non-toxic, non-flammable, water-based application bond intended for use on the NX-Gen Effects™ Skin and Lace hair replacements. For optimum results, use in conjunction with NX-Gen Effects™ Steps 1-3. Clients can expect up to four weeks of holding strength.

NX-Gen Effects™ Application Kit

ACLANGK1S - 5-piece kit

The NX-Gen Effects™ application kit contains five products, designed to enhance one another for the ultimate hold. Clients can expect the optimum hold for up to four weeks when all four steps are followed as recommended. Use with included X20 Adhesive Sponges.

STEP 1 Rinse Away 8 oz. an all-in-one cleaning product used to remove most types of adhesive from the scalp, and aid in removing dead skin cells and oil from the scalp as well.

STEP 2 X-FO Gel 8 oz. used to remove dead skin cells and clean the scalp thoroughly, creating an ideal foundation for the next step.

STEP 3 Derma Seal 8 oz. a specially formulated product that removes sebum from the scalp, leaving the treated area dry and clean. Derma Seal also helps control bacteria growth, minimizing odor.

STEP 4 NX-Gen Unifying Agent 5.0 oz. a non-toxic, non-flammable, water-based application bond.

EXTREME MAX

ACLAEX1 - 5.0 fl. oz.
ACLAEX1C - 0.5 fl. oz.

The eXtreme PRO SERIES MAX is a non-toxic, non-flammable, non-latex application.

EXTREME Pro Series Kit

ACLAEXK1S - 5-piece kit

The eXtreme Pro Series Application Kit offers a solution for clients with extreme demands. The bond will not breakdown with moisture and the airtight tube allows you to use every last drop. Use with included X20 Adhesive Sponges.

STEP 1 eXtreme Pro Series Release 10oz. used to clean the scalp and remove most types of bond, creating a strong foundation for a firm bond.

STEP 2 eXtreme Pro Series Exfoliator 10oz. provides deep cleaning and removal of dead skin cells and debris, leaving the hair and scalp thoroughly cleaned. Menthol and Eucalyptus ingredients bring a fresh aroma while maximizing capillary circulation for optimal scalp health.

STEP eXtreme Pro Series Protection 10oz. a specially formulated product that protects the dermis to prevent the release of deep seated sebum and grime. Tea tree combined with peppermint deodorizes the scalp and controls bacterial growth, minimizing odor.

STEP 4 X20 eXtreme Pro Series Max. 5 oz. a non-toxic, non-flammable, non-latex application.

Ultra-Derm

ACLAX1 - 3.4 fl. oz.
ACLAX1B - 0.5 fl oz.

Ultra-Derm is a non-toxic, non-flammable, water-based application bond intended for use on all skin and lace base hair replacements. For best adhesion, it is recommended that the scalp be totally clean of all bonding residue and oils by using the NX-Gen Effects™ Application Kit Steps 1-3. Allow each application to dry before applying the next coat. Use NX-Gen Effects™ products for thorough clean up. Clients can expect up to three weeks of holding strength.

DermaLace Plus

ACLADL1 - 5.0 fl oz.
ACLADL1B - 1.3 fl oz.

DermaLace Plus is a non-toxic, non-flammable, water-based application bond intended for use on all skin and lace base hair replacements. For best adhesion, it is recommended that the scalp be totally clean of all bonding residue and oils by using the NX-Gen Effects™ Application Kit Steps 1-3. Allow each application to dry before applying the next coat. Use NX-Gen Effects™ products for thorough clean up. Clients can expect up to four weeks of holding strength.

Hard Bond

ACLAHB1 - 1.0 fl. oz.

Hard Bond is a non-toxic, Cyanoacrylate application and it is NOT recommended for contact with the client's skin ("point of fusion" only).

ElastiBond

ACLAEB1 - 1.0 fl. oz.

ElastiBond is a non-toxic, Cyanoacrylate application and it is NOT recommended for contact with the client's skin ("point of fusion" only).

X20 Sponges

ACLAXS1 - 8 Pack

Won't absorb adhesive.

SCALP PREPARATION

NX-Gen Effects™ Step 1 Rinse Away

ACSPNG1 - 8.0 fl. oz.

NX-Gen Effects™ Rinse Away is an incredible all-in-one cleaning product. This product effectively removes most types of bond adhesives, is a powerful exfoliator that gently aids in the removal of dead skin cells, and is a potent degreaser, removing traces of oils from the client's scalp. NX-Gen Effects™ Rinse Away is step 1 in the NX-Gen Effects™ series of cleaners and liquid bonding, creating the ideal foundation for NX-Gen Effects™ and Lace hair solutions.

NX-Gen Effects™ Step 2 Deep Recovery X-FO Gel

ACSPNG2 - 8.0 fl. oz.

NX-Gen Effects™ Deep Recovery X-FO Gel is designed to deep clean and remove dead skin cells and debris, leaving the area thoroughly clean. The addition of Menthol and Eucalyptus gives a crisp, fresh smell and is also renowned for maximizing capillary circulation, thus creating optimal scalp health. NX-Gen Effects Deep Recovery X-FO

Gel is step 2 in creating the ideal foundation for the NX-Gen Effects™ and Lace hair solutions.

NX-Gen Effects™ Step 3 Derma-Seal

ACSPNG3 - 8.0 fl. oz.

NX-Gen Effects™ Derma-Seal is the ultimate preparation product that is specially formulated for situations that require the removal of deep seated sebum and grime leaving the treated area thoroughly dry and clean. Natural antiseptic tea tree combined with peppermint deodorizes scalp and controls bacterial growth, minimizing odors. NX-Gen Effects™

Derma-Seal is step 3 in creating the ideal foundation for the NX-Gen Effects™ and Lace hair solutions.

Astringent Skin Wipes

ACSPSW1 - 50 towelettes

Final Step prior to applying adhesives:
Increases adhesion and helps close skin pores. Thoroughly sanitizes scalp.

AXIS™ Enzo

ACSPAX1 - 10 fl. oz. (Case of 12)
ACSPAX1A - 10 fl. oz.

Axis™ Enzo is a select blend of highly activated, non-pathogenic, stress acclimated bacterial cultures for all bonded wearers. Build-up reducing enzymes rapidly digest compounds such as proteins, carbohydrates, fats, grease, oils, cellulose, detergents, sugars and starches thus eliminating odors.

XFACTOR Bonding Enhancer

ACLAXF1-3.4 fl. oz.

XFactor Bonding Enhancer adds 20%-30% more holding power to your bond by creating a barrier between the bond and the scalp. Suppresses oil build-up on the scalp for more holding power without breakdown. Promotes optimal pH balance of skin with a pH level of 7 and reduces irritation and discomfort. Neutralize contamination by controlling odor and minimizing bacterial build-up.

Extreme PRO Series Release Step 1

ACSPEX1 - 10 fl. oz.

eXTreme PRO Series Release is an innovative scalp cleanser that also effectively removes most types of bond residue. Effectively cleans your client's scalp in one easy step. This is unparalleled to other scalp cleansers and is your first step in creating a strong foundation for a firm bond.

Extreme PRO Series Exfoliator Step 2

ACSPEX2 - 10 fl. oz.

eXTreme PRO Series Exfoliator provides deep cleaning and removal of dead skin cells and debris, leaving the scalp and hair thoroughly clean. Menthol and Eucalyptus ingredients bring a fresh aroma and are renowned for their ability to maximize capillary circulation promoting optimal scalp health.

Extreme PRO Series Protection Step 2

ACSPEX3 - 10 fl. oz.

eXTreme PRO Series Protection is specially formulated for the protection of the dermis to prevent the release of deep seated sebum and grime, leaving the treated area thoroughly dry, clean, and sealed. Tea Tree combined with peppermint will deodorize the scalp and control bacterial growth, minimizing odor.

SOLVENTS

Micro-Cleanse

ACSOMC1 - 8.0 fl. oz.

ACSOMC1B - 1 Liter

ACSOMC1C - 1 Gallon

Micro-Cleanse is an innovative scalp cleaner that does it all. Specially formulated to remove most types of bond residue from the clients' scalp including full head, track and hard bond. Powerful, "bio-degradable" micro scrubbers safely exfoliate and de-grease all traces of oil and scalp debris.

Optima Solution

ACSOOS1B - 1 Gallons

Optima Solution is a versatile adhesive remover that works on skin, poly, and lace hair replacements. Hair replacements can be sprayed with Optima Solution to remove additional residue from base and then washed with a clarifying shampoo to remove solvent oils.

CLEANSE PLUS - 2 STEP CLEANING SET

ACLAX2 - 6.08 oz

ACLAX2L - 1 Liter

ACLAX2G - 1.32 Gallon

Micro-Cleanse is an innovative scalp cleaner that does it all. Specially formulated to remove most types of bond residue from the clients' scalp including full head, track and hard bond. Powerful, "bio-degradable" micro scrubbers safely exfoliate and de-grease all traces of oil and scalp debris.
