THE FIBERBOND COLLECTION IS FORMULATED WITH

Formaflex Technology

Through the body's natural static charge, thousands of small keratin fibers wrap and bond to the hair, instantly creating fullness and concealing hair loss. FormaFlex Technology allows the fibers to intuitively move and flex with the hair to create a seamless look and the feel of natural hair.

FORMAFLEX
TECHNOLOGY

Let your confidence show

KERATIN THICKENING FIBERS SYSTEM

COLOR SWATCHES

Shades for days

8 natural expertly blended shades for the perfect blend with
FormaFlex Technology.

Pro Fiber Precision Control Applicator

The Pro Fiber Precision Control Applicator is a patented and unique electronic device, featuring three-speed options for customizable application. The world's first and only electric hair fiber sprayer is ergonomically designed for easier, more comfortable application. Comes with a chargeable lithium battery.

USE: Unscrew the cap from the Thickening Fibers bottle, remove the sifter and screw the bottle onto the bottom of the device. Use the +/- buttons to control the density level of fibers released. Press button to dispense fibers onto hair. Secure bond with a light layer of Fiber Lock Sealer to keep fibers in place. Adjust density level if needed. If the applicator becomes clogged, detach the nozzle, unscrew the hair fibers bottle and lightly blow air into the opening.

Fiber Lock Set & Seal Spray

Fiber Lock Set & Seal Spray is designed to secure the bond between Keratin Thickening Fibers and your existing hair. Its fast-drying formula ensures hair fibers will stay in place through a variety of conditions—rain, wind, exercise and more. Strands will remain soft and shiny due to its ultra-light, workable formula.

USE: After applying the Keratin Thickening Fibers, spray a light layer of Fiber Lock from 8-10 inches away to secure the fiber bond. Reapply as necessary.

NON AEROSOL
150 ml / 5.07 fl. oz.

Keratin Thickening Fibers 8 Shades

AVAILABLE SIZES
45g / 1.59 oz., 28g / 0.99 oz. and 15g / 0.53 oz.

Keratin Thickening Fibers blend seamlessly with your own hair to fill in thinning areas and conceal hair loss. Through the body's natural static charge, thousands of small protein fibers bond to your own hair to create the immediate effect of fuller hair.

USE: with Precision Control Applicator: Prepare the hair by brushing it into desired style. Remove the sifter and screw the bottle onto the bottom of the applicator. Use the +/- buttons to control the density level of fibers released. Press button to dispense fibers onto hair. Keratin Thickening Fibers can also be used without the applicator. Remove seal and shake fibers onto thinning areas until desired coverage is achieved. Secure the bond with a light layer of Fiber Lock Sealer to keep fibers in place. For use on dry hair only.

COLOR OPTIONS

Hairline Optimizer

The Fiberbond Hairline Optimizer is the perfect tool for a natural hairline finish. It provides precision application and prevents the Keratin Thickening Fibers from falling onto the face. It can also be used for controlling application on facial hair.

USE: Place the tooth side of the Hairline Optimizer on the desired hairline and apply the Keratin Thickening Fibers. Continue application and build up to the desired coverage level. Finish with the Fiberlock Set and Spray for all day hold.
