ECHELON

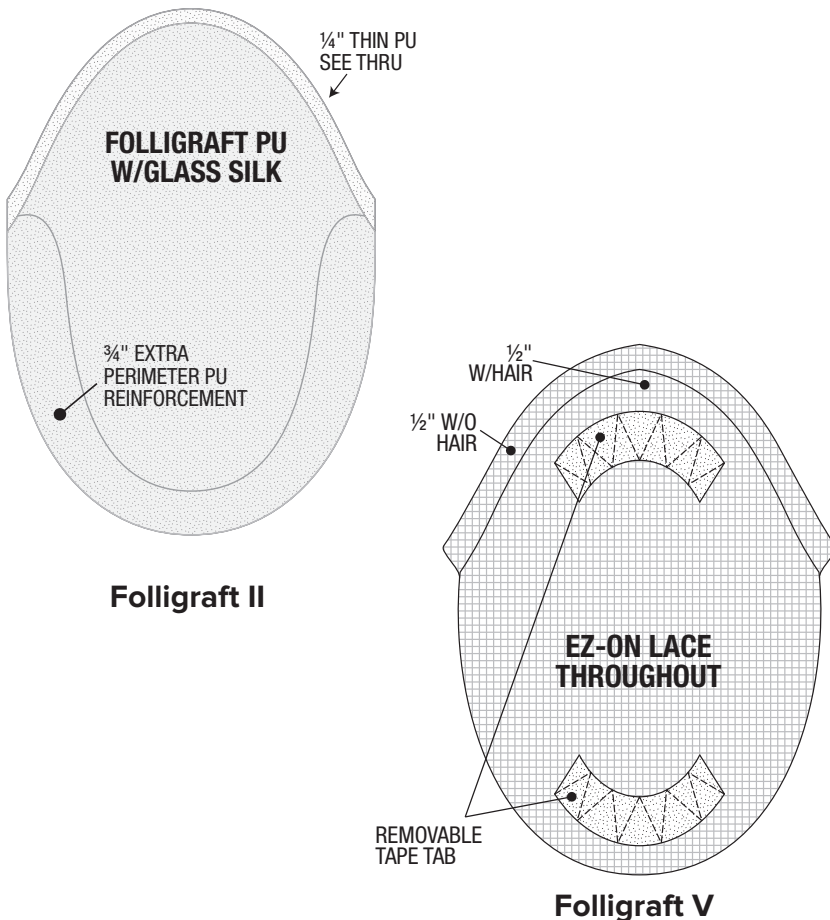

Size:	8" x 10"
Density:	Light to medium
Type:	Diamond Hair with synthetic grey
Length:	5" to 6"
Curl:	25mm
Colors:	Color ring #6165 see pages 14-15
Life:	4-6 systems per year for optimal results*

The first 3" of vented lace has undetectable knotting for a natural front appearance. The remainder of the base is a single layer construction of Super Fine EZ-On Lace connecting to a PU membrane with a small scalloping connection. Choices for attachment methods include perimeter or full-head bonding with ultimate cutaway options.

Human hair is the very best hand-selected Remy hair with a high denier shaft.

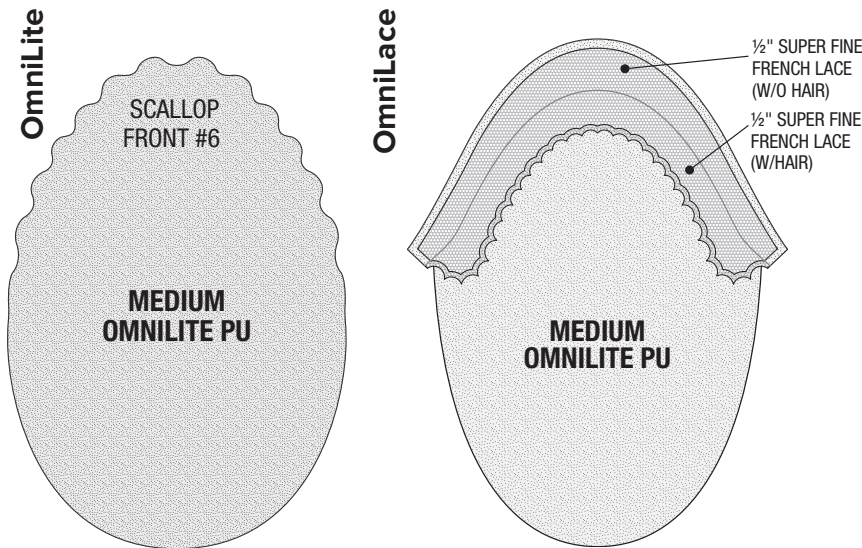

FOLLIGRAFT SERIES

Size:	7" x 9"
Density:	Light/medium
Type:	100% human hair. Grey synthetic up to 50%. Extended greys available. See page 14.
Length:	4" - 6"
Curl:	28mm
Colors:	Color ring #6165 see pages 14-15
Life:	4-6 systems per year for optimal results*

The exclusive Java Knotting technique provides secure knots for the Folligraft series. When these grafts are applied to your client's scalp, they form a skintight fit without bumps or ridges, leaving them with only a full head of hair.

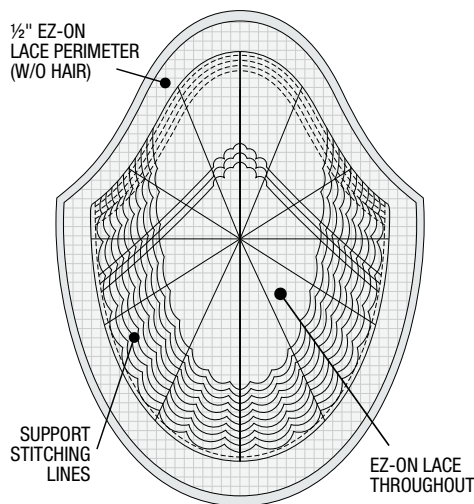

OMNI SERIES

Size:	OmniLite: 7" x 9" OmniLace: 7½" x 9½"
Density:	OmniLite: medium OmniLace: light/medium in lace front. Medium rest of unit.
Type:	100% human hair. Grey synthetic up to 50%. Extended greys available. See page 14.
Length:	4" - 6"
Curl:	30mm
Colors:	Color ring #6165 see pages 14-15
Life:	4-6 systems per year for optimal results*

Both models are constructed with medium OmniLite PU. The OmniLite has a scalloped #6 front while the OmniLace features a Super-Fine lace front. The reverse wet knot in the OmniLite PU provides a secure 360° freestyle. The lace front is ventilated with a small single knot for a natural hair line.

VERSALITE [REGULAR AND SMALL]

Sizes:	Regular 7½" x 9½" Small 6" x 8"
Density:	Light to medium
Type:	100% human hair. Grey synthetic up to 50%. Extended greys available. See page 14.
Length:	4" - 6"
Curl:	30mm
Colors:	Color ring #6165 see pages 14-15
Life:	4-6 systems per year for optimal results*

A single layer EZ-On Lace with base-reinforced stitching around the perimeter allows this graft to be easily cut to any size or shape.

Designed for a variety of attachment methods, Versalite is ideal for membership programs or daily wear.

RAZOR

Size:	8" x 10"
Density:	Extra light
Type:	100% human hair. Grey synthetic up to 50%. Extended greys available. See page 14.
Length:	4" - 6"

Length: 4" - 6"

Curl: 25mm

Colors: Color ring #6165 see pages 14-15

Life: 4-6 systems per year for optimal results*

The Patrick line features a scalloped front for a natural appearance. The Patrick human and Elite can be used as a daily wear for bonded applications. The Patrick synthetic is recommended for daily wear only.

The Patrick Elite is made with a French lace center and a thinner PU perimeter than the Patrick human hair. The design also is V-Looped in front.

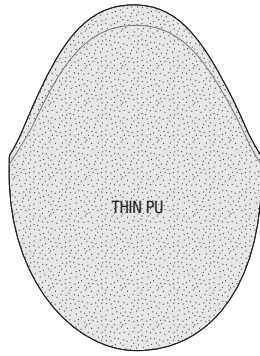

*Even though individual results cannot be guaranteed, we recommend the following guidelines for the optimal look.

TECHNOGRAFT SERIES SEE EACH RESPECTIVE PRODUCT FOR OPTIMAL RESULTS

Technograft I

For optimal results, we recommend 12-18 systems per year*

Thin PU throughout graduating to lighter weight in front.

Size: 8" x 10" **Density:** Light to medium

Type: 100% human hair. Grey synthetic up to 50%.
Extended greys available. See page 14.

Length: 4" - 6" **Curl:** 25mm

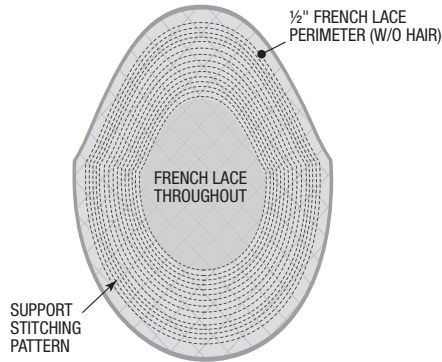

Colors: Color ring #6165 see pages 14-15

Ventilation of the first three rows of hair are V-Looped for a realistic appearance. The rest of the base design uses Single Split Knots for a fine balance of durability and styleability.

Technograft II

For optimal results, we recommend 6-12 systems per year*

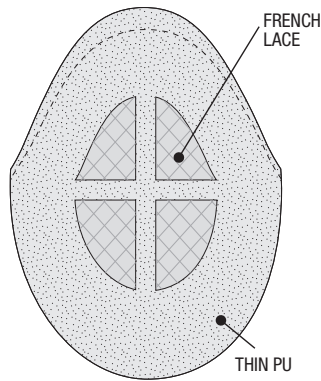

French Lace throughout with support stitching pattern.

Technograft III

For optimal results, we recommend 8-12 systems per year*

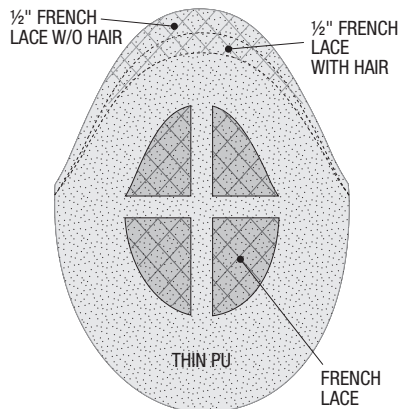

Thin PU with four French Lace inserts in the center.

Technograft IV

For optimal results, we recommend 8-12 systems per year*

French Lace front, thin PU perimeter with four French Lace inserts.

PERMAGRAFT SERIES

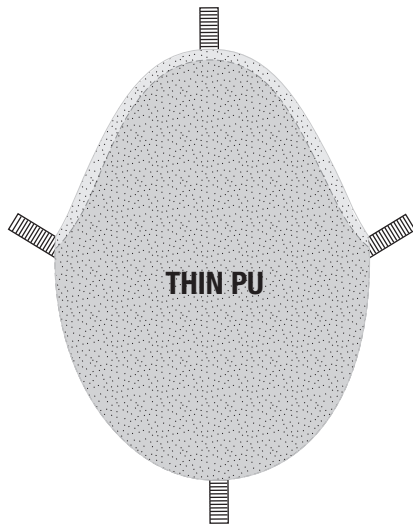

Size:	8" x 10"
Densities:	See product illustrations
Type:	Human hair with synthetic grey
Length:	4" - 6"
Curl:	25mm
Colors:	Color ring #6165 see pages 14-15
Life:	8-12 systems per year for optimal results*

The front hairline root areas of the Permagraft Series are lightened to be virtually undetectable. The ventilated hair direction is freestyle.

The first three rows of Permagraft I, III, and IV are V-Looped (other areas feature Split Knots). Densities range from light to medium.

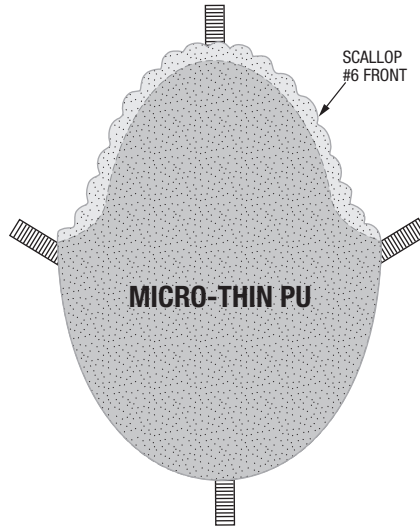

Permagraft I

Thin PU throughout, V-Looped in front. Density is light in sections 1, 3, 5 and light to medium in section 2, 4 and 6.

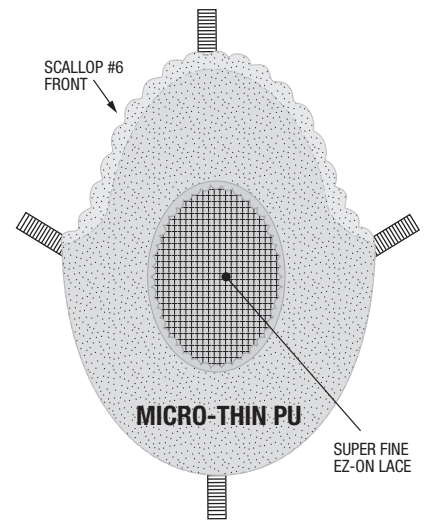

Permagraft III

Micro-thin PU throughout. V-Looped scallop front and Reverse Split Knots in other areas and light to medium density throughout.
