YOUR HAIR HAS A HISTORY;

*True
That!*

Staying on top of the latest hair trends can wreak havoc on your hair. Your hair may look cool, but without proper care and hydration, hair cuticles are much more prone to lift and break. Nutrifuse is a new wave daily treatment collection, specifically designed to mend, revive and ultimately reverse hair damage.

Proteins and nutrient-rich ingredients such as Keratin, Collagen, Argan Oil, Shea butter and Aloe smooth the appearance of the hair's cuticle preventing more from breaking away in the future and improving the overall texture and shine of your hair. Our collection of products is ideal for anyone looking to repair hair without unnecessary additives like sulfates and parabens (eek!).
